

eBook Instructions for Kindle Users

When you purchase eBooks from Voice Of The Light Ministries online store, you will receive two types of eBook file types, **ePub** and **Mobi**.

After the purchase of an eBook, you will receive an email with link to download your eBook file. Be sure to download the **Mobi version**, which is indicated at the end of the eBook file name as an extension **.Mobi**.

You can also login to your customer account in our online store, click on the **"Downloads"** link located on the left side of the page, and then select your eBook and download the Mobi file version.

If you plan to use the Kindle device to view our eBooks, please **download the Mobi file version to your computer** and make sure you follow these instructions below. If you plan to read your eBook on a Desktop computer, you can download the **Kindle Reader application** to read directly on the computer.

The following instructions are only if you prefer to open our eBook Mobi file using your **Kindle device**. All of our eBooks are also available on Amazon Kindle.

How to open a Mobi file on a Kindle

If you own a Kindle device you can use it to open your Mobi file. You will need to transfer the Mobi file to your Kindle and instructions on how to do this are below.

You can only use your Kindle to open Mobi files and you **will not be able to use your Kindle to open an ePub file**.

There are two options for transferring the Mobi file to your Kindle:

- Sending the file via **email to your Kindle account, and onto your Kindle device** or
- via a **USB cable**.

Transferring files to your Kindle using Email

Instructions adapted from [Amazon Help pages](#).

1. **Download the Mobi file** to your computer. This will have a .mobi extension after the file name and would have been sent to you as an attachment, or if the file was too large for email, you would have been sent a Dropbox link to download the file from. Make sure you know where the Mobi file downloads to on your computer (your Desktop or Documents folder may be a good place).
2. Go to **Amazon's website** and log in to your account.

eBook Instructions for Kindle Users

3. Click on **Your Account** and then scroll down to the Digital Content section and select **Manage Your Kindle** or **Manage your Content and Devices** (see below).

4. Select **Personal Document Settings**. You should see a heading **Send to Kindle email settings**. There should be an email address there, XXXXX@Kindle.com. [See here for more information!](#)
5. Go to **Approved Personal Document E-mail List** section which is further down the page **Manage your Content and Devices**. Add your email address to this list, so that the Kindle device will accept the file.
6. In your mail program, **start a new email** to the @Kindle.com email address you just found.
7. **Attach the Mobi file** and then send your email.
8. Wait approximately five minutes and then **open your Kindle and sync**. Your book should appear in your *Books* or *Documents* sections.

Transferring files to your Kindle using a USB cable

Instructions adapted from [Amazon Help pages](#).

1. **Download the Mobi file** to your computer. This will have a .mobi extension after the file name and would have been sent to you as an attachment, or if the file was too large for email, you would have been sent a Dropbox link to download the file from. Make sure you know where the Mobi file downloads to on your computer (your Desktop or Documents folder may be a good place).
2. **Connect your Kindle** to your computer using its USB cable. The Kindle should appear in "Computer" or "My Computer" for Windows users and on the desktop for Mac users.
3. **Open the Kindle drive**. You will see several folders. You want to locate the folder called **Documents**.
4. Now find the Mobi file you downloaded to your computer and **copy it to the Kindle Documents folder**. You can do that by clicking the file and dragging it to that folder.
5. Safely eject your Kindle from your computer.
6. You should now see the Mobi file on your *Home screen* or in the *Documents* section of your Kindle.
